

We are an in-a-box partner for your seed to sale journey

HealthPayer Strategy, Solutions & Technology
Services Provider for FemTech

PROBLEMS

Only 2% of total digital health investment goes to FemTech, less than 10% of those will be carried by HealthPayers.

Lack of experience in technology leads to misuse of financial resources and lost time for FemTech founders.

SOLUTIONS

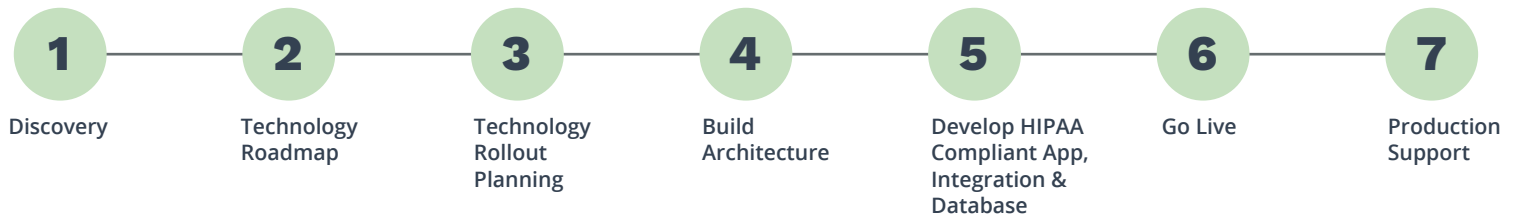

We will create a business case for your value-based care to sell to HealthPayers and to raise funds.

From your digital presence to built-in integrations with Telehealth, Lab and Pharmacy systems, we build the technology roadmap and support it throughout.
